

LIS TABLES (INQUIRY)

USER GUIDE

OCTOBER 1990

PREFACE

This User Guide is intended for the use of Federal Aviation Administration (FAA) personnel who have authorized access to the Logistics and Inventory System (LIS).

IMPLEMENTATION DATE : OCTOBER 1990

TABLE OF CONTENTS

1.0	OVERVIEW	1
2.0	LOGGING ON THE LIS	4
3.0	TABLE MAIN MENU	7
4.0	SPECIAL APPLICATIONS AND FEATURES	49

1.0 OVERVIEW

1.1 GENERAL DESCRIPTION

The Tables (Inquiry) was designed to allow users the capability to inquire Region Codes, Unit of Issues, Federal Supply Class, Noncataloged Item Managers by Region, Noncataloged Equipment Specialists by System, Repair Source Codes, Procurement Source Codes and Regional Coordinators in the LIS System.

1.2 BENEFITS

The user will have easy access to current Table information.

Phone numbers of the ITEM MANAGERS and EQUIPMENT SPECIALISTS will be available for quick reference to the users.

Access to functions is controlled by security level. Each user is assigned the appropriate security level to perform required tasks. Unauthorized users will be restricted from accessing certain functions.

1.3 SECURITY LEVEL FOR TABLES (INQUIRY)

The Tables (Inquiry) function requires a security level to maintain the integrity of the Tables (Inquiry) process. Unauthorized users attempting this function will receive an error message, **INVALID OPTION FOR YOUR SECURITY LEVEL**, which will be displayed in the upper left corner of the screen.

The valid security level is as follows:

LEVEL 1 - INQUIRY ONLY

Provides access to all Table inquiry options, except Repair Source Code, Procurement Source Code and Supply Clerk Tables.

If these three options are selected, an error message will appear stating **THIS OPTION UNAVAILABLE FOR YOUR SECURITY LEVEL** . This level is assigned to all Field/Mike Monroney Aeronautical Center users that do not have update capabilities.

1.4 STANDARD NOTATION FOR INPUT FROM THE KEYBOARD

Throughout the LIS USER GUIDE, the following conventions will be used consistently to indicate user keyboard entry

EXAMPLE:

When the user sees	It represents...	Example...
[] (square brackets)	a specified key that should be pressed.	[ENTER]
< > (greater than & less than)	the data to be input	<99> <01>
ALL CAPITAL LETTERS	a data or field name	TRANSACTION CODE CONTROL NUMBER
BOLD CAPS	information from the actual screen	<99> - TO CANCEL OR RE-TURN TO LIS MAIN MENU
Press	instructions to depress a key or Keys	Press [ENTER]
Input	instructions to type the specified input	input option NUMBER <2>
NOTE:	important information	NOTE: Set printer for 132 column output
[keyname]-[keyname]	combinations of keys to press together	Hold the first key down, press the second

FIGURE 2
MAIN SYSTEM MENU, LIS010

After logging onto the Logistics and Inventory System, the user will reach the **LIS MAIN MENU - LIS010**. Here the user decides which LIS application to access.

Each **LIS MAIN MENU** is tailored to fit the application needs of the user; therefore, the number of the options corresponding to the application will differ from user to user. In the above example, OPTION <12> is for LIS TABLES.

To access LIS TABLES, input <12> in the ENTER OPTION field and press **[ENTER]** and the **TABLE MAIN MENU - TAB010**, (Pg. 7) will be displayed.

```

FIGURE 19

OPTION <9> from the **TABLE MAIN MENU - TAB010**, (Pg. 7) will display the **REGIONAL COORDINATORS MENU - TAB060**.

The following options are available from this screen:

OPTION <1> INQUIRE COORDINATOR. Input OPTION <1>, press **[ENTER]** and the REGIONAL COORDINATORS will be listed by Region. All Coordinators will be listed within their specific Region. If a particular Region is entered on the RGN CODE field, this Region will be displayed first.

- OPTION <20> **PRINT REGIONAL COORDINATORS TABLE** . Input OPTION <20> and press **[ENTER]**. If a specific coordinator type is entered in the COORD TYPE field, only a list of the particular Regional Coordinators selected, i.e. LIS, will be printed. If no type is entered, all Coordinators will be printed, listing them by COORD TYPE.
- OPTION <99> **EXIT TO TABLE MAIN MENU - TAB010** , (Pg. 7).

INQUIRE - FEDERAL SUPPLY CLASS TAB031

An error message will appear in the upper left corner of the screen when invalid / incomplete data is input. The error message will display information for course of action. The cursor will be positioned at the first invalid field on the screen.

On Figure 21, **TAB031**, (Pg. 49) the cursor is located at the point of the asterisk (' * ') for a check of CATEGORY NUMBER. Edit information for validity and press **[ENTER]**.

If additional fields are invalid, the message will continue and the cursor will relocate until all fields are valid.

The user can choose to disregard the data and exit the screen before processing the transaction. Input OPTION <99> - **EXIT TO TABLE MAIN MENU - TAB010**, (Pg. 7).
